Summary

I am a motivated freshman at RV University, deeply passionate about computer science and engineering. Currently pursuing a Bachelor's degree, I am dedicated to mastering programming, algorithms, and software development. I am also concurrently specializing in Machine Learning through Stanford University, further expanding my expertise in this dynamic field. Known for my quick learning ability, I thrive in fast-paced environments and am adept at picking up new concepts and technologies efficiently. With strong problem-solving skills and a proactive approach to learning, I excel in collaborative environments. Eager to contribute fresh perspectives and creative solutions, I am ready to embark on a journey of continuous growth in the field of computer science.

Skills

C, C++, Java, Python, Web Design, Research, Teamwork, Reflective Thinking, Data Analysis

Experience

Data Analyst

Accenture • Remote

04/2024 - 04/2024

Accenture North America Data Analytics and Visualization Job Simulation on Forage - April 2024

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
- Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders

Software Engineer Intern

JPMorgan Chase & Co • Remote

04/2024 - 04/2024

J.P. Morgan Software Engineering Virtual Experience on Forage - April 2024

- Set up a local dev environment by downloading the necessary files, tools and dependencies.
- Fixed broken files in the repository to make web application output correctly.
- Used JPMorgan Chase's open source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.
