PROJECTS

Rubrics
Data Analysis
📅 December 2023
- Worked on a dataset of heart failures from an ML repository lab and analyzing the major and minor risk factors involved in heart failures.
- Created Visualization to Interpret data and understand the columns
- Pre-processed the dataset and handled the distribution all in python language.

Mini Project
Front-End Web Development
📅 December 2023
- I made a website of a Hotel Booking business.
- Created with a very minimal design to overcome the cluttered standards that modern day websites possess.
- Created with just HTML, CSS and Java Script.

Fellow Teacher
Community Service
📅 December 2023
- Me and my teammates had to be fellow teachers for a day.
- We taught about the Solar System to 4th graders at 'Hruthvi International School'.
- Students really loved the teaching approach we had come up with.

Circuitrix
DSCA Project
📅 December 2023
- It was a team event where we had a create a light project.
- Me and my teammates created an electronic dice using the basic electronic components like Breadboard, resistors, LED's.
- It had numbered LED's which would glow based on the trigger element.
- Made to be compatible with a 7-segment display as well.

CAREER OBJECTIVE

"As a freshman pursuing B.Tech in CSE Honours at RV University, I aim to build a strong foundation in computer science, delve into emerging technologies, and contribute to innovative projects. Eager to collaborate, learn, and stay ahead of industry trends, my goal is to become a skilled professional ready to make a meaningful impact in the field."

EDUCATION

BTech(Hons)
Computer Science and Engineering
RV University
📅 September 2023 - current
◉ Bengaluru , Karnataka

SKILLS

- Research
- Problem-solving
- Data analysis
- Critical thinking
- Teamwork
- Python, HTML, CSS, JS, C

HOBBIES

- Painting
- Nature Photography
- Web Developing
